

# Derbyshire Basketball Competition Framework

## Introduction

Between January 2006 and April 2007, Derbyshire Sport have taken a strategic lead on a review of competition in the county.

A national drive initiated by the National Council for School Sport called for 'A World Class System of Competitive Sport for young people, a step change in the content structure and presentation of competitive opportunities and a heightened profile for competitive school sport'.

In real terms; a call to modernise, eliminate duplication and over competition and broaden the range of opportunities at the base. This document gives an overview of the proposed competition structure for basketball in Derbyshire.

## Key Messages

This document fits in with the guidance from England Basketball, whose key messages are below:

- \* A framework designed to take young people from a young age to a lifelong involvement in basketball.
- \* Basketball can be played as 2v2, 3v3 and 4v4, leading up to the full game of 5v5 once game understanding and skill development are clearly understood.
- \* A developmental-based programme whereby the pace of learning can be modified according to the individual needs of the child.
- \* Leadership, organisational, officiating and coaching skills can be learned alongside the technical skills of the game.
- \* An inclusive programme with differentiation integrated for young people with a variety of disabilities.

## Framework

The Derbyshire framework begins with multi skills activity through Key Stage 1 and the first 2 years of Key Stage 2. In school years 5 and 6 the mini basketball festival is adopted at district level, open to all participants and targeted at a 'participation' level for beginners and improvers.

At club level, players are invited to participate through mini basketball activity in local leagues.

At Key Stage 3 and 4, 'participation' opportunities are in place through separate festivals at Y7, 8, 9, 10 & 11. Opportunities targeted at 'performance' level are available at Y7-Y11 level at county, regional and national level.

At club level, 'participation' youth leagues are present across the region, notably through the Maid Marion League. National league competition provides 'performance' level competition.
